

Stories from the Kitchen Garden

&

Detectives from the Kitchen Garden

Each book presents four mischevious tales on modern topics.

Stories from the Kitchen Garden

Stories written in a fable style dealing with differencies , self consciousness, illusions of happiness or violence.

Detectives from the Kitchen Garden

This volume presents 4 mysteries solved by Sir Leak's and Dr Turnip's investigations. Here, the author invites children to consider the solidarity, nature preservation, gender problems or allergies brought on by plants.

In both books, with an ID card for each character, we learn more about their geographical origin, the way it can be cooked, the expressions in the everyday life using their name...

For exemple, we learn where Bruxelles sprouts have got their name, where the radish comes from, why a tomato is a fruit...

The illustrations by Bérengère Delaporte captivate the spirit of the stories to perfection and portray the atmosphere with humor and joyful colours.

Picture books for children from 4 to 9 years old.

Format : 22 x23,5 hard cover 4cc
